

QUALI-PRO

FOURSOME™ Spray Pattern Indicator

TURF PIGMENT

FOURSOME™ is a unique, pigment additive formulation designed to enhance and extend the aesthetic appearance of your turf site following a pesticide application.

KEY BENEFITS

- When used as a spray pattern indicator, FOURSOME™ helps ensure uniform application of the pesticide
- Supports a consistent turf response to the plant protection product you have applied
- Use of FOURSOME™ may reduce oxidative and UV damage to turf

How it Works

FOURSOME™ Turf Pigment stimulates the plant's natural metabolism and can improve turf's color, density, vigor, consistency and strength, from the inside out. Unlike dyes and paints, FOURSOME™ is a Pigment which is absorbed into the plant for longer lasting affects. FOURSOME™ also improves sports turf and golf course playability, and when applied in late winter/early spring can improve the consistency of spring green up and turfgrass transition. FOURSOME™ can be tank-mixed with most Fungicides to improve disease efficacy.

Regulatory

Non PMRA regulated product. Do not need to report use.

Packaging

Case is 4 X 3.78 L

Compatibility

Can be used with commonly used turf protection products.

Storage

Store in cool dry area away from feed and foodstuffs.

FOURSOME™ Spray Pattern Indicator

Application Rate

For optimal performance, use 1.1–1.5 L of FOURSOME™ per hectare of turf with 1.2 L /ha suggested as the initial rate. At 1.2 L per ha, a jug will treat 3.15 ha or 7.8 acres.

Application Instructions

1. Fill sprayer tank one-half to two-thirds full with water.
2. With agitation on and following standard order of addition, add FOURSOME™ after dry flowable/dispersible granules and before water-soluble pesticide formulations.
3. Allow FOURSOME™ to fully disperse and mix into the spray solution before adding additional pesticides.
4. Make application of pesticide solution mix to target site at rate specified on pesticide manufacturer's label.
5. After application, clean sprayer tank as per pesticide manufacturer's label.

Always read and follow product label directions.
