TI BENTGRASS (25 lb. Pail)

T-1 is the first of a new generation of creeping bentgrass, with qualities never before seen in golf turf • "Championship greens without the championship maintenance" • "The Forgiving Bent" • Ball marks, divots heal rapidly • Dollar spot resistance equal to the best • Rich green color • Makes visible gains on Poa annua each year • Great on GREENS, TEES and FAIRWAYS

PENCROSS 2.0 (25 lb. Bag)

PC2.0 pays homage to the past while looking toward the future. Its dense, upright and aggressive growth habit competes exceptionally well against Poa annua, while displaying a stunning medium-green color and very fine leaf texture.

Odyssey Bentgrass (25 lb. Pail)

Blend of bentgrass, great for divots & fairways

Soil Amendments

Lime [Calcitic Limestone 98 G]

98MG is made from 98% pure calcitic limestone, and is the premier choice to correct or maintain soil pH.

- Apply Spring & Fall for maintenance

5-10 lbs/1,000 sq.ft.

50 lb bag

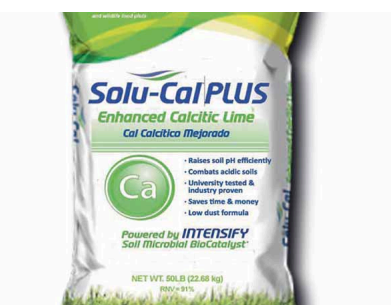

Gypsum [S04 Humic]

Apply to turfgrass to increase plant root mass, repair sodic soils, and improve soil structure, which promotes nutrient uptake and stress tolerance.

- Apply early Spring & Late Fall to flush salt build up from the winter salting, fertilizing etc.

5-10 lbs/1,000 sq.ft .

50 lb bag

Solu-Cal Plus

Solu-Cal PLUS with Intensify Soil Microbial BioCatalyst is a unique formulation of soluble Calcium complexed with a powerful blend of beneficial active microbes.

- Solu-Cal Plus, 36% Ca, 8% Lignin Sulfonate
- Note: 46 bags in stock

5 lbs/1,000 sq.ft.

50 lb Bag

Top Cut 4-4-0

Top Cut® is an organic, nutrient-rich, nitrogen fertilizer containing micronutrients, such as calcium, sulfur, iron and humic acid.

- All season fertilizer and is ideal to use with other traditional fertilizers
- Increases soil's ability to absorb and store moisture
- Great to use when overseeding, sodding and seeding

10 lbs/1,000 sq.ft .

50 lb bag

Top Cut 5-1-5 (Greens Grade)

Top Cut® is an organic, nutrient-rich, nitrogen fertilizer containing micronutrients, such as calcium, sulfur, iron and humic acid.

- All season fertilizer and is ideal to use with other traditional fertilizers
- Increases soil's ability to absorb and store moisture
- Great to use when overseeding, sodding and seeding

10 lbs/1,000 sq.ft

50 lb bag

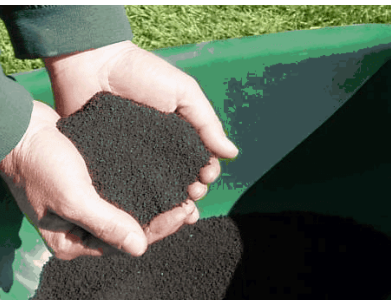

Dakota Peat (24 L)

From golf and sports turf management to greenhouse production and master gardening, the DAKOTA Peat is the solution for your success. This easy-to-use, highly concentrated organic growth enhancer works harder so you don't have to, by encouraging your system to grow through improved water retention and feeding abilities for a superior end result.

Dakota Peat (1,800 lb. Tote)

From golf and sports turf management to greenhouse production and master gardening, the DAKOTA Peat is the solution for your success. This easy-to-use, highly concentrated organic growth enhancer works harder so you don't have to, by encouraging your system to grow through improved water retention and feeding abilities for a superior end result.

Dakota Peat Granular

Get all of the benefits of DAKOTA Peat in the form of a granular that can be easily integrated into topdressings or a variety of other applications. DAKOTA Peat is 100% organic, has a high cation exchange ratio (CEC) and retains water better than porous ceramics.

30 lb pail

Rev Turf Pro

REV's complex natural organic compound structure and formulation make it effective in almost any growing situation. This all-natural, organic growth stimulant is a great additive for any horticulture, turf, or agricultural application in which you wish to help promote improved growth, strength, and overall health.

3.5 oz / 1,000 sq.ft.

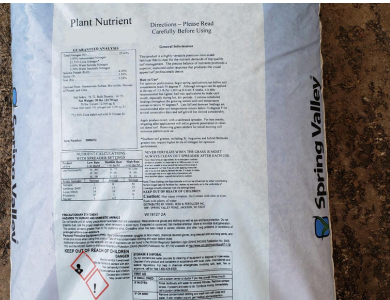

2. x 2.5 Gal/ Case

Worm Castings

Available in bags & totes

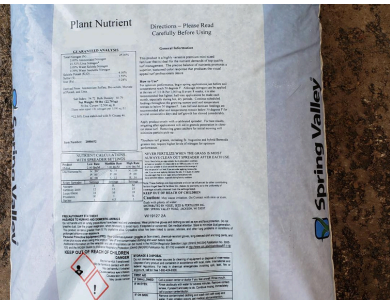

Greens Grade Fertilizer

15-3-9 Greens Grade

60% Nutralene, 46% Top Cut, SOP

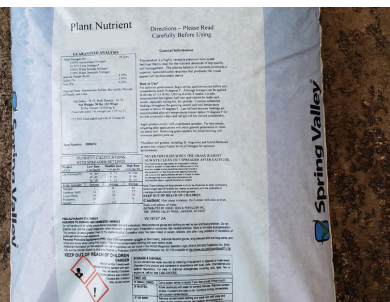

50 lb bag

10-22-20 Greens Grade

Micro Greens Starter, DDP FE, MN, ZN

50 lb bag

12-2-25 Greens Grade

90% Nutralene, Micros

50 lb bag

15-2-15 SGN 100

Includes 10.3% Sulfur & 0.6% Calcium

50 lb bag

5-28-0 Crystal Green

Crystal Green + 10% Mg

50 lbs bag

Fertilizer SGN 220

25-0-5

Rejuvenate and green up turf after the winter season

50 lb bag

25-5-15

- Provides superior green up, while protecting against summer heat stress
- Includes 20% Top Cut Organic
- Designed to provide residual for 16 weeks

50 lb bag

12-32-16

Fertilizer to promote root establishment

- Apply when seeding, sodding, and overseeding
- Establishes new turf faster

50 lb bag

34-0-9

Ensures a smooth growth for a healthy green lawn even when growing conditions are warm & humid or dry & cold.

- All season fertilizer that can last 4-6 months
- Apply in late Spring

50 lb bag

15-0-30

Boost your turf in the fall for healthier turf in the Spring

- Prepare your turf for winter stress
- Apply mid-late September - just before your grass goes into dormancy

50 lbs bag

Fertilizer SGN 220

20-5-20

Use to provide growth, green color, along with balanced potassium for stress resistance & disease prevention.

- 75% Pronexx, MOP, SGN 150
- Ideal for promoting overall lawn health, especially when your soil is already sufficient in phosphorus .
- Conduct a soil test to tailor applications

50 lb bag

10-20-20

Great to use when phosphorus and potassium are needed.

- Use to promote root development and overall plant health
- Conduct a soil test to tailor applications

50 lb bag

20-10-20 (75% SRN)

Great to use when needing green up, strengthening roots, and overall protection against stress.

- Includes KMAG & BORON
- Use Early Spring, Mid-Summer & Early Fall
- Conduct a soil test to tailor applications

50 lb bag

0-0-22 KMAG

KMAG, a potassium magnesium sulfate fertilizer, enhances lawn health by supplying essential nutrients: potassium for stress and disease resistance, magnesium for photosynthesis, and sulfur for nutrient absorption. This results in greener, stronger grass that can better withstand environmental stresses.

- Take a soil test to tailor applications

50 lb bag

0-0-50

Use when your turf needs to improve resistance to heat stress, cold, and overall durability. It is best applied in late fall to prepare the grass for winter or during periods of stress to help strengthen the grass.

- Conduct a soil test to tailor applications

50 lbs bag

Ferrous Sulphate Monohydrate

Iron, Sulphur

50 lb bag

Boron 10% Granular

Ideal for blending mixed fertilizers for soil application.

Boron 10% is a product containing both calcium and sodium borate.

Sodium borate is highly water soluble and calcium borate is less soluble for extended availability. Boron 10% is agronomically preferred in low CEC soils because of plant physiological uptake.

55 lb bag

Boron 20.5% Powder

Great to use when needing green up, rooting, and overall protection against stress.

- Includes KMAG & BORON
- Use Early Spring, Mid-Summer & Early Fall
- Conduct a soil test to tailor applications

20 kg bag

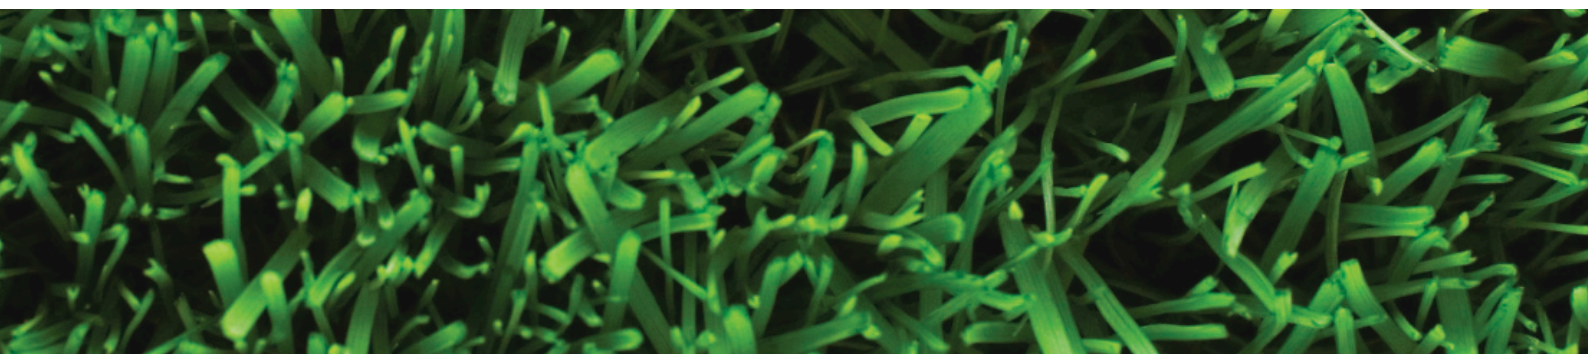

Manganese Suphate 32%

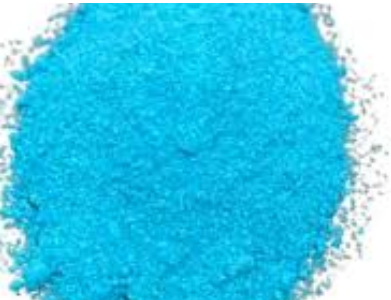

Monohydrate Powder

- 32% Manganese, 18% Sulfur
- This product may be used to correct soil deficiencies as determined by soil and/or analysis.

50 lb bag

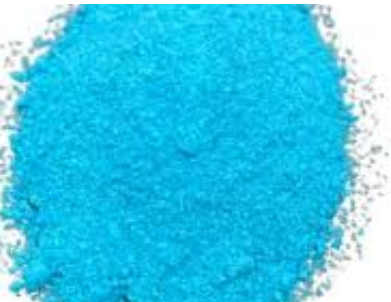

Soluble Fertilizer

15-30-15

Soluble Starter

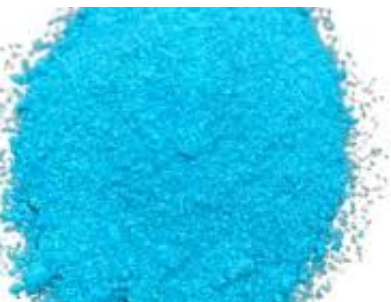

15 kg bag

10-52-10

Soluble Starter

15 kg bag

20-20-20

Balanced soluble fertilizer

15 kg bag

BioNutrients 8-0-9

- Contains a diverse mix of beneficial soil bacteria
- Improves plant nutrient uptake and stress tolerance
- For Fairways, Lawn Care, Trees & Ornamental

1 lb/Acre

5 lb. Pail

Landscaper's BioNutrition 3-0-3

Prepare your lawn for the summer heat and stress

- Accelerates Seed Germination & Increase rooting
- Conditions Soil Structure
- Adds Mycorrhizae
- Add Important Carbon to Soil
- Improve Water Retention

1 lb/Acre

5 lb. Pail

ASTRON (Root Driver)

Floratine's core technology for driving roots and preconditioning turfgrasses to stress.

- Enhanced Root Systems, Increased Cell Division
- Stress Tolerance, Plant Recovery
- Synergistic With Primo®

2.5 gal jug

1-3 fl oz / 1000 sq ft

PER "4" MAX (Drive Density)

Floratine's core technology for driving topical growth and density or to promote recovery of damaged turf. Combines primary and secondary nutrients with naturally occurring and biologically active fermentation materials, antioxidants and carbon compounds.

2.5 gal jug

1-3 fl oz / 1000 sq ft

PERK UP (Heat Stress Relief)

No turf should be without it during the summer! Provides rapid relief from photosynthetic and respiration stresses caused by high humidity and heat, low light and/or saturated soil conditions. An advanced formulation of readily available calcium and carbohydrates complexed with a proprietary blend of patented phytochemicals, antioxidants and amino acid chelates.

2.5 gal jug

1-3 fl oz / 1000 sq ft

KNIFE PLUS (Rapid Green)

The advanced formulation for improved color and growth, extended greening, increased uniformity, quick availability and improved rooting for fine turf. Encourages healthy plant development under normal and extreme environmental, chemical and mechanical stresses. Superintendent designed; superintendent proven.

2.5 gal jug

1-3 fl oz / 1000 sq ft

PROTESYN (Liquid Sunshine)

ProteSyn is Protein Synthesis! This advanced liquid organic complex provides complete amino acids, proteins, simple and complex carbohydrates, and essential turf vitamins to conserve plant energy and improve photosynthetic efficiency.

Foliar

3-6 fl oz / 1000 sq ft

Soil

9-12 fl oz / 1000 sq ft

GLYCOFUZE

GlycoFuze is a next-generation-technology product that provides glycomic sugars during low-light periods and increases carb loading. GlycoFuze should be used where foliar uptake and systemic movement is desired.

- Assists in Transport of Nutrients, Enhances Systemic Performance
- Improves Intercellular Mobility, Supplements Photosynthetic Deficiencies

3-6 fl oz / 1000 sq ft

RENESSANCE (Micronutrient Technology)

A multi-vitamin for turf. Provides essential chlorophyll and secondary micronutrients fortified with Floratine's balanced blend of kelp and other natural fermentation extract materials for rapid foliar uptake. Effective for preventing nutrient deficiencies or for stress recovery situations.

2.5 gal jug

1-3 fl oz / 1000 sq ft

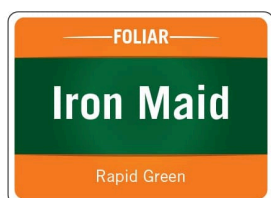

PK FIGHT 0-0-28

A proprietary phosphite fertilizer that boosts the energy-generating Krebs cycle of the turf. It is readily absorbed in turf foliage but may also be applied as a soil application for root uptake. A must for any turf feeding program!

2.5 gal jug

3-6 fl oz / 1000 sq ft

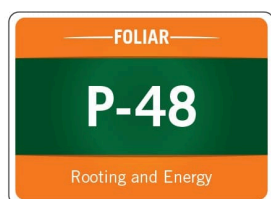

IRON MAID (15-0-0)

6% chelated iron compound designed for rapid green-up of fairways, tees and roughs.

Fairways
1-2 fl oz / 1000 sq ft

Greens
3-6 fl oz / 1000 sq ft

P-48 (10-48-8)

The premium phosphate-soluble nutrient formulation that is essential for increasing PO₄ for rooting and energy. Also recommended for use in soil applications.

6-10 lb/acre

X-FACTOR 4-4-16

2.5 gal jug

3-9 fl oz / 1000 sq ft

X-FACTOR 28-0-0

2.5 gal jug

3-9 fl oz / 1000 sq ft

X-FACTOR 12-0-12 (SRN)

2.5 gal jug

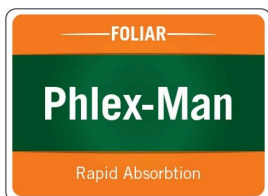

3-9 fl oz / 1000 sq ft

PLEX-MAG

4% liquid magnesium supplement specifically formulated for maximum availability. Citric acid chelation ensures rapid absorption for foliar uptake and also prevents soil tie-up for root uptake.

0.75-1.5 fl oz / 1000 sq ft

PLEX-MAN

5% liquid manganese supplement with citric acid chelation for rapid absorption, maximum availability and prevention of soil tie-ups.

0.75-1.5 fl oz / 1000 sq ft

EON 75 (Biological Aerification)

Eon 75 is an organic, long-term soil conditioner containing 75% purified humic acids. Provides multiple benefits to improve soil and the soil environment, helping ensure every foliar application can reach its maximum potential. Aerating biologically, it regulates water movement in the soil and flocculates soil particles while stimulating microbial proliferation.

50 lb bag

1 lb / 1000 sq ft

FIGHT'S ON 0-0-18 + 3.6 Si

Fight's On is a one-two punch to prevent stressed-out turf and offers more than a fighting chance. With a heavyweight dose of 3.6% silicon for cell strength, stress and wear tolerance along with a proprietary stabilized phosphite for a boost of energy, this is a great soil application to get your turf through the toughest of rounds.

2.5 gal jug

3-6 fl oz / 1000 sq ft

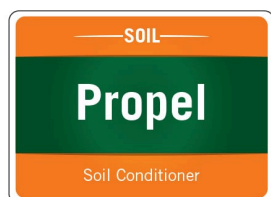

MAXIPLEX (Soil Catalyst)

Maxiplex provides multiple benefits for all soil types. It is a concentrated 20% liquid humic acid which decreases soil nutrient tie-ups and promotes the availability of nutrients otherwise unavailable for plant uptake. Maxiplex stimulates microbial activity and enhances the soil's capacity for air, nutrient and water availability.

2.5 gal jug

3-6 fl oz / 1000 sq ft

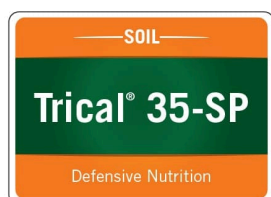

PROPEL

Propel is a soil conditioner designed for fairway use and provides Floratine's liquid humic acid and superior penetrating wetting agent. Propel will decrease soil nutrient tie-ups and promote the movement of excess water through the soil.

2.5 gal jug

3-6 fl oz / 1000 sq ft

TRICAL® 35-SP

Trical 35-SP contains 35% precipitated calcium carbonate forming a dry soluble powder that dissolves easily in water. Trical 35-SP delivers readily available calcium to the crown area of turf. Trical 35-SP is an effective soil buffer for salts and other toxicities. Contains newly added micronized humic acid powder.

15 lb pail

10-20 lb / acre

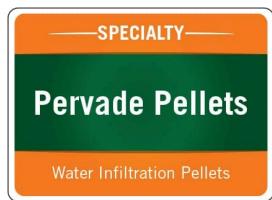

PREVADE (Push Water)

A superior penetrating agent and soil penetrant that promotes quick and long-lasting movement of excess moisture into the soil. Pervade is non-burning and is 100% biodegradable.

2.5 gal jug

1-2 fl oz / 1000 sq ft

PREVADE PELLETS (Push Water)

Pelletized infiltration technology for effective dispersion, uniform distribution and reduced hydrophobicity on overlooked areas such as berms, undulating greens, roughs and sloping terrain.

12 x 0.5 lb (227 g) pellets

RETAIN PRO (Hold Water)

A non-ionic retention agent that promotes uniform distribution of water into the root zone where its ingredients interact with soil molecules to retard leaching.

3-6 fl oz / 1000 sq ft

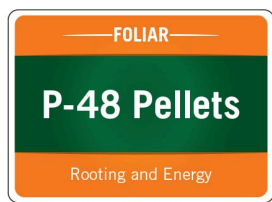

For extended moisture maintenance
6-9 fl oz / 1000 sq ft

RETAIN-MAX PELLETS (Hold Water)

A proprietary blend of a retention-style wetting agent (Retain Pro) combined with humic acid (Maxiplex) for hand watering and syringing. Improves water availability to the turf and provides longer-lasting relief from soil moisture problems.

12 x 0.5 lb (227 g) pellets

P-48 PELLETS

The same great source of premium phosphate as our P-48 Foliar product now offered in a convenient pellet so you can apply much needed PO₄ for increased plant rooting and energy. The P-48 Pellets are great for grow-ins on turf and for landscape ornamentals.

12 x 0.5 lb pellets
