Growing Media

Dakota Peat

From golf and sports turf management to greenhouse production and master gardening, DAKOTA Peat is the solution for your success. This easy-to-use, highly concentrated organic growth enhancer works harder so you don't have to, by encouraging your system to grow through improved water retention and feeding abilities for a superior end result

24L Bag

1,800 L Tote

Rev Granular

Get all of the benefits of DAKOTA Peat in the form of a granular that can be easily integrated into topdressings or a variety of other applications. DAKOTA Peat is 100% organic, has a high cation exchange ratio (CEC) and retains water better than porous ceramics

30 lb Pail

USGA Spec & Top Dressing Sand

Amazing quality. A natural, fine brown sand

Approx. 34 tonnes per load

Worm Castings

Organic, microbe-rich compost that improves soil health, boosts root growth, and enhances water retention. Perfect for gardens, divot mixes, turf, and beds

1 Cubic Yard Tote

35 L Bag

Pro Gro Mix

Meet the new Pro Grow Mix — the soil blend your plants deserve. Designed for stronger roots, better nutrient uptake, and longer-lasting growth. Whether indoors or outdoors, this premium mix supports regenerative agriculture, moisture retention, and real results in the field. Built for professionals who know the difference

1 Cubic Yard Tote

35 L Bag

Soil Amendments

Lime [Calcitic Limestone 98 G]

98MG is made from 98% pure calcitic limestone, and is the premier choice to correct or maintain soil pH

- Apply Spring & Fall for maintenance

5-10 lbs/1,000 sq.ft.

50 lb bag

Gypsum [S04 Humic]

Apply to turfgrass to increase plant root mass, repair sodic soils, and improve soil structure, which promotes nutrient uptake and stress tolerance

- Apply early Spring & Late Fall to flush salt build up from Winter salting, fertilizing etc.

5-10 lbs/1,000 sq.ft.

50 lb bag

Rev Turf Pro

REV's complex natural organic compound structure and formulation make it effective in almost any growing situation.

This all-natural, organic growth stimulant is a great additive for any horticulture, turf, or agricultural application to promote improved growth, strength, and overall health

3.5 oz / 1,000 sq.ft.

2. x 2.5 Gal/ Case

Top Cut 4-4-0

Top Cut® is an organic, nutrient-rich, nitrogen fertilizer containing micronutrients, such as calcium, sulfur, iron and humic acid

- All season fertilizer and ideal to use with traditional fertilizers
- Increases soil's ability to absorb and store moisture
- Great to use when overseeding, sodding and seeding

10 lbs/1,000 sq.ft.

50 lb bag

Top Cut 5-1-5 (Greens Grade)

Top Cut® is an organic, nutrient-rich, nitrogen fertilizer containing micronutrients, such as calcium, sulfur, iron and humic acid

- All season fertilizer and is ideal to use with traditional fertilizers
- Increases soil's ability to absorb and store moisture
- Great to use when overseeding, sodding and seeding

10 lbs/1,000 sq.ft

50 lb bag

Grass Seed

Premium Grass Seed

An excellent, economical option great for new lawns or overseeding

- 40% Kentucky Bluegrass
- 40% Creeping Red Fescue
- 20% Self-Repairing Perennial Ryegrass

5 lbs/1,000 sq.ft.

50 lb

Aggressor (Overseed Blend)

Great for overseeding | Quick germination | Endophyte enhanced

- 50% Turf Star RPR
- 25% Doubletime Perennial Ryegrass
- 25% Fastball Perennial Ryegrass

5 lbs/1,000 sq.ft .

50 lb

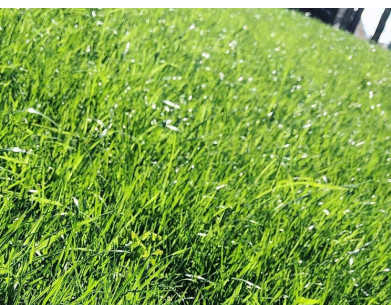

Rapid Green

An excellent option for new lawns or overseeding

- 40% Kentucky Bluegrass
- 30% Turf Type Perennial Ryegrass
- 15% Chewings Fescue
- 15% Creeping Red Fescue

5 lbs/1,000 sq.ft.

10 kg

Water Savor Blend

Performs well in dry, sandy, troubled soils | Drought Tolerant | Deep root system

- 30% Tall Fescue
- 30% Self-repairing Tall Fescue
- 20% Chewings Fescue
- 20% Self-repairing Perennial Ryegrass

8 lbs/1,000 sq.ft.

50 lbs

Seed & Feed

A mix of grass seed and nutrient rich organic slow release fertilizer

- 63.6% Top Cut
- 18.2% S04 Humic
- 9.1% Kentucky Bluegrass, 5.5% Perennial Ryegrass, 1.8% Creeping Red Fescue, 1.8% Chewings Fescue

25 lbs/1,000 sq.ft .

44 lbs

Grass Seed

BMO Sport Field Blend

- 25% Kentucky Bluegrass
- 25% Kentucky Bluegrass
- 20% Kentucky Bluegrass
- 15% Perennial Ryegrass
- 15% Self-Repairing Type Perennial Ryegrass

5 lbs/1,000 sq.ft.

50 lb

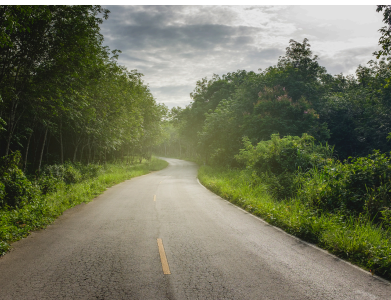

Sun & Shade

Sun & shade mixture - Use in full sun or moderate shade

- 25% Kentucky Bluegrass
- 45% Chewings Fescue
- 30% Self-repairing Perennial Ryegrass

5 lbs/1,000 sq.ft.

50 lb

NB Highway

- 40% Creeping red Fescue
- 20% Hard Fescue
- 15% Canada Bluegrass
- 15% Annual Ryegrass
- 5% Alsike Clover
- 5% Red Top

5 lbs/1,000 sq.ft.

50 lb

N.S Highway

- 35% Perennial Ryegrass
- 25% Creeping Red Fescue
- 15% Timothy
- 10% Tall Fescue
- 10% Aslike Clover
- 5% Kentucky Bluegrass

5 lbs/1,000 sq.ft.

50 lbs

PEI Highway

- 40% Creeping Red Fescue
- 27% Kentucky Bluegrass
- 15% Timothy
- 10% Perennial Ryegrass
- 5% White Clover
- 3% Red Top

5 lbs/1,000 sq.ft.

10 lbs

Grass Seed

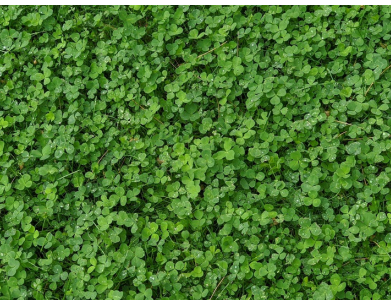

SOS Annal Ryegrass

High water requirement, Frequent irrigation (in warm months), High mowing height, No winter dormancy, Very fast to establish, Transitions out completely after winter

Wildflower

Wildflower Mixture is a blend of annual and perennial wildflowers for establishing permanent flowerbeds and for areas where minimum maintenance ground cover is desired. When planted in the Spring, the mixture will establish and the annuals will flower throughout the first season leaving the perennials to continue blooming in subsequent years. Little maintenance is required to maintain a colourful stand

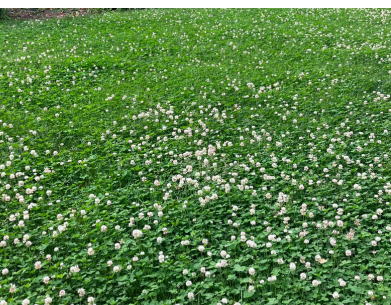

Miniture Small Leaf Clover

A low growing, environmentally friendly clover with tiny micro leaves that produce their own source of natural nitrogen which feeds your lawn constantly

5 00 g/1,000 sq.ft.

500 g

White Clover

White Clover with Nitro-Coat®
Robust, adaptive, drought resistant and somewhat shade tolerant. Sow in spring or late summer. Produces small flowers. May attract bees

500 g/1,000 sq.ft

500 g

Contractor Blend

Barenbrug's Contractor's Mix provides quick cover when needed, at any time of the year, to prevent soil degradation and provide erosion control in all conditions

- 70% Tall Fescue
- 30% Annual Ryegrass

8-10 lbs/1,000 sq.ft

10 lbs

Lawn Fertilizer

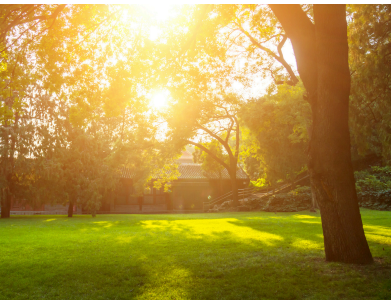

Supreme Spring Green Up [25-0-5]

Rejuvenate & green up your lawn after the Winter season

- Apply late Spring when soil temp is above 16 degrees
- Spring fertilizer for all lawn types
- 50% Slow Release, 15% Organic, 1% Iron

5 lbs/1,000 sq.ft.

50 lb bag

Supreme Green Stress Relief [25-5-15]

Provides superior green up, while protecting against summer heat stress

- Includes 20% Top Cut Organic
- Designed to last for 12-16 weeks

5 lbs/1,000 sq.ft.

50 lb bag

Supreme Starter [12-32-16]

Fertilizer for new seedlings and to promote root establishment

- Apply when seeding, sodding, and overseeding
- Establishes new lawns faster

5 lbs/1,000 sq.ft.

50 lb bag

Supreme All Season [34-0-9]

Ensures a smooth growth for a healthy green lawn even when growing conditions are warm & humid or dry & cold

- All season fertilizer that can last 4-6 months
- Apply in late Spring

5-7 lbs/1,000 sq.ft.

50 lb bag

Supreme Fall Booster [15-0-30]

Boost your lawn in the Fall for healthier turf in the Spring

- Prepare your lawn for winter stress
- Apply mid-late September - just before your lawn goes into dormancy

5 lbs/1,000 sq.ft

50 lbs bag

Lawn Fertilizer

20-5-20

Provide growth, green color, along with potassium for stress resistance

- 75% Pronexx, MOP
- Ideal for promoting overall lawn health
- Conduct a soil test to tailor applications

5 lbs/1,000 sq.ft.

50 lb bag

10-20-20

- Great to use when phosphorus and potassium are needed
- Use to promote root development and overall plant health

5 lbs/1,000 sq.ft.

50 lb bag

20-10-20 (75% SRN)

Great to use for green up, strengthening roots, and stress resistance

- Includes KMAG & BORON
- Use Early Spring, Mid-Summer & Early Fall
- Conduct a soil test to tailor applications

5 lbs/1,000 sq.ft.

50 lb bag

0-0-22 KMAG

KMAG, a potassium magnesium sulfate fertilizer, enhances lawn health by supplying essential nutrients: potassium for stress and disease resistance, magnesium for photosynthesis, and sulfur for nutrient absorption. This results in greener, stronger grass that can better withstand environmental stresses

50 lb bag

0-0-50

Use when your turf needs to improve resistance to heat stress, cold, and overall durability. It is best applied in late fall to prepare the grass for winter or during periods of stress to help strengthen the grass

- Conduct a soil test to tailor applications

50 lbs bag

Specialty Fertilizer

Ferrous Sulphate Monohydrate

Highly effective source of iron for turf management, providing essential nutrients that enhance turf color, density, and overall plant health. This fine, soluble powder is ideal for correcting and preventing iron deficiencies in turfgrass, especially during cooler months when turf is prone to chlorosis

50 lb bag

Boron 10% Granular

Ideal when blending mixed fertilizers for soil application. Boron 10% is a product containing both calcium and sodium borate. Sodium borate is highly water soluble and calcium borate is less soluble for extended availability. Boron 10% is agronomically preferred in low CEC soils because of plant physiological uptake

55 lb bag

Boron 20.5% Powder

Great to use when needing green up, rooting, and overall protection against stress

- Includes KMAG & BORON
- Use Early Spring, Mid-Summer & Early Fall
- Conduct a soil test to tailor applications

20 kg bag

Manganese Sulfate 32%

Monohydrate Powder

- 32% Manganese, 18% Sulfur
- This product may be used to correct soil deficiencies as determined by soil and/or analysis

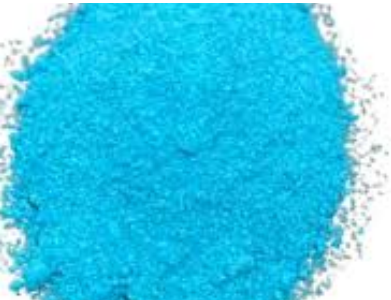

50 lb bag

Ammonium Sulfate [21-0-0]

Ammonium sulfate is a fast-acting nitrogen fertilizer that provides immediate green-up and promotes lush, vigorous turf growth. Its added sulfur improves nutrient uptake and helps correct sulfur deficiencies, making it ideal for cool-season grasses in early Spring or Fall

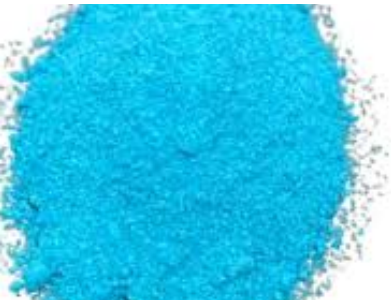

Soluble Fertilizer

15-30-15

Soluble Starter

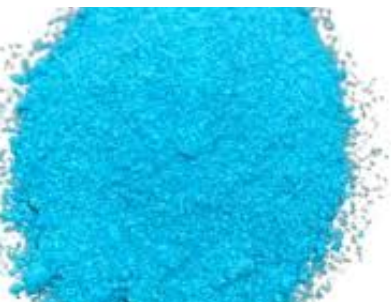

15 kg bag

10-52-10

Soluble Starter

15 kg bag

20-20-20

Balanced soluble fertilizer

15 kg bag

BioNutrients 8-0-9

- Contains a diverse mix of beneficial soil bacteria
- Improves plant nutrient uptake and stress tolerance
- For Fairways, Lawn Care, Trees & Ornamental

1 lb/Acre

5 lb. Pail

Landscaper's BioNutrition 3-0-3

Prepare your lawn for the Summer heat and stress

- Accelerates Seed Germination & Increase rooting
- Conditions Soil Structure
- Adds Mycorrhizae
- Add Important Carbon to Soil
- Improve Water Retention

1 lb/Acre

5 lb. Pail

Liquid Fertilizer

Starter 7-28-4

With slow release nitrogen, plus Micros & Fulvic Acid

- Stimulates Root Development
- Complete Micro Package
- Extended Nitrogen Release

For Hydroseeding:
30 oz/1,000 sq.ft

2 x 2.5 gal jugs/case

Nitro 28-0-0

With 72% slow release nitrogen

- Provides plants with steady, uniform supply of Nitrogen for extended periods of time
- Use as a foliar feed or soil applied

10 oz/ 1,000 sq.ft

2 x 2.5 gal jugs/case

15-2-15 Pro-Balance

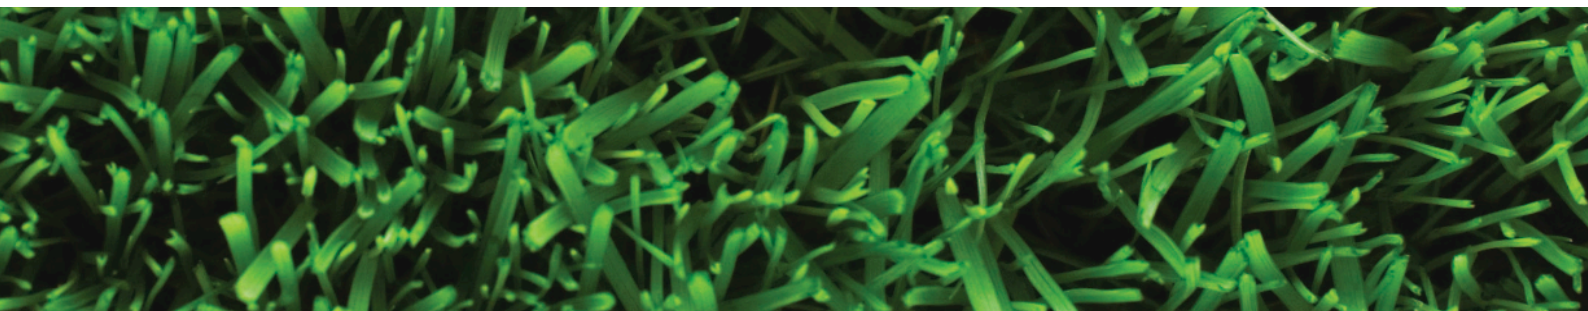

Contains soluble, readily available potassium for immediate plant uptake to maintain sufficient potassium levels. Nutrients are absorbed both through the leaves and roots. Potassium improves the stand of stalk and increases disease resistance

Cal Mag Max 7-0-3

Calcium and magnesium are very important secondary nutrients and part of the chlorophyll molecule which is necessary for sugar formation. Inadequate amounts of magnesium will first appear as a general loss of green color at bottoms of older leaves

2 x 2.5 gal jugs

Hydroseed Mulch

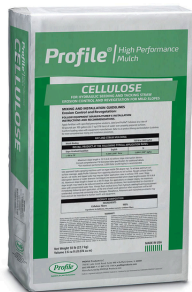

Covergrow Pelletized Mulch

Seed Aide® CoverGrow™ is an advanced technology granular mulch made from recycled wood and cellulose fiber

- Once activated by water, the granules quickly expand and disperse to provide outstanding protection and water-holding performance right where it's needed.

40 lbs

Cellulose Paper Mulch

Made of 100% Grade-A recycled paper and is the cleanest, most consistent cellulose mulch available

- Ideal cover for general seeding
- Maximum slope length of 15 feet (4.6 m)
- Functional longevity is ≤ 3 months

50 lbs

Wood Mulch

Contains 100% of the highest quality recycled wood fibers that have been Thermally Refined®

- Provides maximum soil coverage for greater value
- Delivers farther and smoother shooting for greater productivity
- Maximum slope length of 20 feet (6.1 m)
- Functional longevity is ≤ 3 months

50 lbs

Flexterra

As severe weather events become increasingly frequent, more contractors than ever are turning to the proven strength and versatility of Flexterra® HP-FGM®: the industry's best, most consistently specified hydraulic mulch

- Superior erosion control
- Faster vegetative establishment

50 lbs

Promatrix

ProMatrix with patented Engineered Fiber Matrix™ (EFM™) technology was created to give you an edge when bidding on jobs requiring BFM/SMM hydraulic products

50 lbs

Hydroseed Mulch

Recover Base

Plantae ReCover Base is a unique blend of fibres that provides the attributes of both straw and wood into a single, easily installed erosion control mulch (45% Straw, 45% Wood, 10% Hemp)

50 lbs

Recover Base Plus

Straw/hemp/wood blend mulch reinforced with tackifier for light to moderate slopes

50 lbs

Recover Nextgen

First-of-its-kind combining the extreme strength of Plantae Refined™ hemp fibres with wood, cereal and plant-based tackifier for steep slopes and highly erosive soils. Plantae Refined™ hemp fibres are fibrillated to offer micro soil reinforcement and have the ability to add strength by draping closely to the soil surface where soils are most vulnerable

50 lbs

Recover BFM

Plantae ReNew Topsoil Armour is a super premium Hemp-based hydraulic mulch system made from high-tensile, biodegradable fibres that stabilize the soil surface and root zone and encourage vegetative growth

50 lbs

Renew Subsoil

Plantae ReNew Subsoil is a first of its kind premium Hemp-based soil reinforcement fibre made from high-tensile, "Plantae refined fibres"™ that stabilize the soil like a root zone. It is designed to increase tensile strength within the soil itself, especially in areas vulnerable to concentrated or persistent waterflow. ReNew Subsoil can be used both as a patch for eroded areas & as part of a broader erosion control & soil stabilization system

50 lbs

Other

Pro-Tac

PRO-TAC is a professional-grade polyacrylamide (PAM) hydroseeding tackifier designed to increase soil stabilization, reduce wind and water erosion, maximize fiber-to-fiber and fiber-to-soil adhesion, enhance germination, and control dust in non-traffic areas

3 lbs

Green Dye

Green spray indicator saves you time and money by helping to eliminate overspray and ensuring accurate and uniform applications

3.78 L

Blue Dye

This concentrated, temporary spray colorant can be added with pesticides, plant protectants, foliar nutrients, and other liquid spray solutions to provide highly visible evidence (blue color) of where a spray application has been made

3.78 L

Defoamer

General purpose antifoamer and defoamer | Prevents foam spillover

1 qt

Tank Cleaner

Neutralize is a powerful and safe way to remove pesticide residues from your spray equipment

32 oz

Spreaders

ERGO-PRO SPY50L-1P 50# BROADCAST SPREADER

The 50-lb. capacity Spyker ERGO-Pro™ Walk-Behind Broadcast Spreader is perfect for spreading seed, fertilizer, ice melt and more. An innovative hopper design virtually eliminates bridging, allowing material to flow to empty with no shaking or bouncing required. The ergonomic, adjustable handle design is made to better match the operator, helping reduce user fatigue so you can get the job done in an easy, timely fashion

ERGO-PRO SPY80-1S-TD 80# TURFDRESSER PRO

Built for versatility, seamlessly switching between standard spreading and precise top-dressing. Its large 13" x 5" turf tread tires ensure smooth, stable operation. Simple calibration, intuitive on/off controls, and Spyker's Accuway system for dead-center spread distribution

SPYDSB-9G DROP-IN SPRAYER WITH BOOM

With the SPYDSB-9G, you'll easily upgrade your Ride-On Spreader to a Sprayer just like that! This 9 Gallon Drop-In Sprayer provides a fast and efficient way to apply all common lawn and garden liquids, including fertilizers, pesticides, insecticides, water, and more

COMMERCIAL PUSH/TOW LAWN ROLLER

The perfect tool for repairing lawn damage and packing down loose dirt, seed, or sod. The roller easily converts from a push to a tow-behind design— just flip the handle, no tools required! The rugged drum is constructed in commercial-grade thick poly to withstand season after the season, while the rounded edges prevent lawn damage during tractor turns

PRO-SERIES S100-12020 RIDE-ON SPREADER

Boost productivity and reduce operator fatigue with the Spyker S100-12020 Ride-On Spreader—now equipped with a NEW Honda 160cc Commercial Engine for longer run times and easier maintenance. Built on a proven stand-on platform, it features, marine-grade cables, tie-down hooks, and a simple thumb switch for precision control. With speeds up to 5 mph, and turf-safe tires for a smooth ride, the ROS5 is designed to cover more ground, more efficiently—all year long

Floratine

Iron Maid 15-0-0

with 2% Chelated Manganese & 3.5 sulfur. 6% chelated iron compound designed for rapid green-up of turf

2.5 gal jug

3-6 fl oz / 1000 sq ft

Eon 75 (Granular)

Eon 75 is an organic, long-term soil conditioner containing 75% purified humic acids. Provides multiple benefits to improve soil and the soil environment. Aerating biologically, it regulates water movement in the soil and flocculates soil particles while stimulating microbial proliferation

50 lb bag

1 lb/ 1000 sq ft

X-Factor 23-0-0

Floratine's 23-0-0 is a high-nitrogen liquid fertilizer formulated to deliver rapid green-up and sustained vegetative growth, ideal for turf and plants during peak growing periods

3-9 fl oz / 1000 sq ft

X-Factor 4-4-16

Floratine's 4-4-16 is a high-potassium liquid fertilizer designed to support improved stress tolerance, and enhanced overall plant health

3-9 fl oz / 1000 sq ft

Glycofuze

Use where foliar uptake and systemic movement is desired

- Assists in Transport of Nutrients
- Enhances Systemic Performance
- Improves Intercellular Mobility
- Supplements Photosynthetic Deficiencies

3-6 fl oz/ 1,000 sq.ft

Floratine Specialty

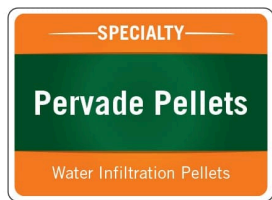

Pervade (Push Water)

A superior penetrating agent and soil penetrant that promotes quick and long-lasting movement of excess moisture into the soil. Pervade is non-burning and is 100% biodegradable

2.5 gal jug

1-2 fl oz / 1000 sq ft

Pervade Pellets (Push Water)

Pelletized infiltration technology for effective dispersion, uniform distribution and reduced hydrophobicity on overlooked areas such as berms, undulating greens, roughs and sloping terrain

12 x 0.5 lb (227 g) pellets

Retain Pro (Hold Water)

A non-ionic retention agent that promotes uniform distribution of water into the root zone where its ingredients interact with soil molecules to retard leaching

3-6 fl oz / 1000 sq ft

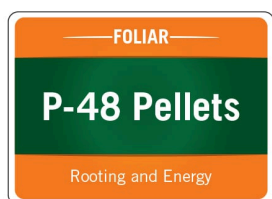

For extended moisture maintenance
6-9 fl oz / 1000 sq ft

Retain Max Pellets (Hold Water)

A proprietary blend of a retention-style wetting agent (Retain Pro) combined with humic acid (Maxiplex) for hand watering and syringing. Improves water availability to the turf and provides longer-lasting relief from soil moisture problems

12 x 0.5 lb (227 g) pellets

P-48 Pellets

The same great source of premium phosphate as our P-48 (11-48-8) Foliar product now offered in a convenient pellet so you can apply much needed PO4 for increased plant rooting and energy. The P-48 Pellets are great for grow-ins on turf and for landscape ornamentals

12 x 0.5 lb pellets

(506) 432-1102
